

houses and farms equipments.

He told: “up to now, we’ve Specified 1000 milliard tommans For draught lands and executing pressured- irrigating systems in our farmlands, besides some Contracts have been formed between jihad-e- agriculture and Transportation management to maintain the floatings and launch’s needed fuel.

Breeders and poult-producers worry of increasing prices in Oilgas

Before execution of Aiming cooperative law, oilgas value was 165 rials per ltr. Suddenly this figure reached to 1500 Rials, it means 9 times as much before.

Traditional producers and breeders use simple heaters in their stables and saloons, Their oilgas consumption is 2 times more than producers who use standard heaters.

It is needed 2/2 lit oilgas for transformation one piece of broiler to an alive of 2/5kg. Consequently these increased prices will cause 1500 to 3250 rials in final product.

Obviously, demand of incubation and also old-day- chicken will be declined.

Our producers and breeders have only one way: changing fundamentally heating systems in their forms. But by increasing prices which directly affects per kg produced poultry, what is our government suggestion to solving this challenge?

Minister of jihad-e-agriculture forecasts Agricultural status bettering in this year

Dr. Khalilian expressed: “we strongly forecast by end of this year 200000ha farmlands and also one milliard and 500000 ha of shallowlands nearby dams will be equipped with new irrigating systems.

He added: “By aiming Cooperative law’s execution, we can forecast not decreasing in agriculture credits. For performing this law, we have to accomplish the protective agricultural projects in 270000 ha farmlands.

He referred to replacing worn out tractors which reach to 150000 units. And also pressured irrigating system has performed in 136000 ha lands during 15 months ago. This figure will be reached to 200000 ha farmlands.

By 2000 milliard tommans facilities and 400 milliard tommans of public credit: Equipments of energy-sources will be rebuilt and restored in cattles and poultry houses

The minister of jihad-e-agriculture expressed: “We have Considered a 3-5 years project for rebuilding productive units of poultry and husbandry in our Country, of course this figure is Considered for first phase of aiming Cooperative law execution and certainly there will be some other budgets by the governors”

“For energy supply’s optimizing project, we’ve started in 17500 poultry farms and 10000 Cattles from 8 months ago”

“Up to now we have inspected and reformed 40 percent of energy sources equipments in our farms”, He told.

Aiming Cooperative law and maintain forgotten targets in agricultural performances

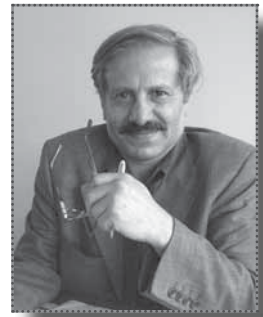

Performing this law consists of 2 main phases: The first, preparing proper situation to be executed. The second, Fundamental and structural bettering and changing in productive agricultural units by aiming decreasing total prices and increasing quality of products.

The editorial in chief of Damparvaran seriously worries about targets which have been forgotten.

Aiming Cooperative law will automatically affect our agriculture and its related sections. Though 300 millirad tommans has specified for 10000 breeders, but Can it be lonely a confident and Continious support for this enormous productive economy?

On the other hand we are facing with highprices of oilgas from 165 to 1500 rials which is anticipated reaching to 3500 rials. So what future do our producers have in prospect? Do you really prospect them to continue?

They are entitled to be supported to Competting with importers. Salaries should be gradually Accorded with inflation and high prices. Our government is responsible to control fundamentally changing in infrastructure of agriculture producers. Finally our rural or traditional farmers are entitled to giving social security by governors.

The new approved law in agricultural sector

Pro – utilization law in agriculture is approved as the newest and the most complete law in Majlis. It announced by president toward minister of agriculture.

It contains of 35 articles and 36 items.

It was confronted with some of agriculture assemblies and farmer's objections. They believe some parts of this law diverse with farmer's benefits, such as: transferring, training, committing of agricultural researches to the private sector, they think it's a governmental responsibility.

Analyzing 32 years of Iranian Commerce: Our import figures is 5 times more than our exports

According to accounts of chamber of Commerce, we have imported 5 times more than our exports over 32 years ago.

During 6 past months ago, we have faced with budget deficit about 17 milliard and 308 million Dollars which has increased over than 3 milliard dollars, Comparing with last year.

During 6 past months ago, our importing was about 23 milliard dollars and our nonoil exports received to 8 milliard dollars.

Manager Director of Agri-Bank, explained credits and Cooperatives will be paid to farmers by the form of incash and facilities

Agri-Bank's Manager, Dr. Talebi, in a negotiation with "Fars" news ageny pointed to credits which parallel with aiming Cooperative law.

He explained about 4 working groups of inspectors for evaluating and bettering poultry

In the name of GOD
