

provinces in the Country. More than 1500 of those members have PhD. degree and the others are licentiate in one of the agriculture sections.

He suggested that government can allocate a little of project credit to this organization to qualify the agriculture projects.

Eng. Abbas Keshavarz in an interview: No wheat Import in next year

He mentioned: 94% of our import is from 8 main agriculture crops. He added: We produced 10/5000/000 tons wheat last year, and 11/5000/000 tons for current year, so we need only 1/5000/000 tons wheat in the next year. We do not need any wheat import.

He told about the sugar beet production and signed that the sugar companies can import sugar in accordance with buying the sugar beet from farmers. He said we produced 1/350/000, tons sugar in current year that is unprecedented.

In increasing the quality and investigation on fertilizers, he said: all of them must be offered under the certifications.

Very best wishes for your every success in 2016 – see you in Rennes in September!

Good Government, Exporter Bad Government, Importer!

The editorial of this issue is allocated to crops import and export. The editor in chief tried to analyze that import and export are two economic and commercial categories, and according to needs to cereals, wheat and grains we approach the best policies.

The writer has showed that the level of exports and imports are not good measures for a good or bad government.

This editorial is a theoretical reply to whom that are opposed or agree to government actions. Somebody says that the agricultural crops export is increased and the import is decreased.

But the opposition sector believes it is not true.

The writer emphasized on the import of raw materials, animal genetics, cereal, vegetable and, oil seeds (rape) and so others to develop the agriculture in the country.

Russia Agriculture Minister and Vanguard Traders arrived in Iran

Russia Agriculture Minister, Alexander Nicolaewich Tekachov in the head of Russian agriculture Traders arrived in Iran in Jan. 19. 2016.

He came to negotiate to Eng. M. Hojati, Iran Agriculture Minister about export and import agricultural crops between two countries. The export authorities were issued for 25 Iranian companies for exporting eggs, poultry, fisheries and dairies. And from Russia will import oil seeds, cereal and wood. Eng. M. Hojati answered to the questions about the reasons of delaying in protocols and export basements in Iran, and said the delay was because of the lack of export infrastructures for both sides.

Some correspondents asked about the commercial relations between Iran and Russia and the doubts on durability of these relations.

According to the dispute between Russia and Turkey and its role in these agreements, Tekachov replied: We are not treachery to our friends.

Agriculture Engineering organization requested more Government Cooperation

Eng. Kabiri, director of Agriculture Engineering organization announced to Damparvaran reporter that government do not pay attention enough to this powerful organization.

He said: This organization has 207/000 members in 32
